Connecting America through Coins

MESSAGE FROM THE DIRECTOR

Dear Friends and Collectors:

I am delighted to present the United States Mint 2023 Collector's Guide. This year, we're featuring sets and coins meant to be shared and cherished with loved ones. We're celebrating extraordinary women throughout history in the American Women Quarters™ Program, celebrating our past with the Morgan and Peace Silver Dollars, honoring the iconography of our Nation with the American Eagle Coins, and so much more.

Coin collecting is an invaluable tradition that is often passed down from generation to generation. It's a way to connect past and present, while also giving us hope for the future. While coin collecting can be an individual hobby, there is something to be said about sharing one's collection with friends, family, and fellow numismatists. Sharing our collections and the stories behind them is how the United States Mint helps to connect America through coins.

My hope is that you share the coins and stories found in this guide with someone you love and that you help inspire the young collectors in your life to not only take up this fulfilling pastime, but also to learn the history behind the people and moments that helped shape our Nation. On behalf of the United States Mint, thank you.

Ventris C. Gibson

Native American Heritage

RECOGNIZE LEADERS AND HISTORY-MAKERS

As part of the U.S. Armed Forces during World War I and World War II, Native American Code Talkers relayed secret communications using their tribal languages.

Since 2008, the Code Talkers Recognition Act enabled the U.S. Mint to strike Congressional Gold Medals, and sell bronze replicas, honoring each Native American tribe that had members serving as Code Talkers.

The work of hundreds of Code Talkers was essential to the Allied victory in World War II and many important battles, including at Utah Beach during the D-Day invasion in France, and at Iwo Jima in the Pacific.

In the beginning of WWI, there were 29 Code Talkers. By the end of WWII, there were over 400.
